or website.

SILVER SNEAKERS CLASS DESCRIPTIONS

Chair Yoga: All fitness levels. Chair Yoga is taught from both a seated and standing position, in combination with restorative breathing exercises, to enhance the flow and energy created by the various poses.

Chair Stretch & Balance: All fitness levels. Class is taught from both a seated and standing position. Class will focus on restorative breathing exercises, muscle stretching and balance work.

Silver Sneakers Classic: Beginner AOA; this low impact class is performed with music, from both a seated and standing position (staying seated is an option) and alternates between low impact moves, balance, and strength work using resistance tubes, exercise ball, and light dumbbells. Exercises are performed that mimic everyday movements and will help increase mobility and strength in the major joints and muscles.

Silver Sneakers Cardio Circuit: Beginner-Intermediate AOA; this low impact cardio class is presented in a circuit format that alternates between low impact choreographed moves, balance and strength work using resistance tubes, exercise ball and light dumbbells. The cardio and balance portions of the class are performed standing, but strength exercises may be done standing or seated in a chair.

TOP: Friendships and connections are one of the BEST parts about our Silver Sneakers classes. Meet new people, make new friends, and stay healthy together.

MIDDLE: Silver Sneakers Circuit is a great way to increase cardio capacity in a low impact way. This class is generally performed standing and does not use chairs.

BOTTOM: Silver Sneakers Classic classes offer participants the option to complete class standing or seating. Everyone works on building strength and balance in this class.
